Career Development Pathway for Nursing and Midwifery

NURSING AND MIDWIFERY

A career with endless personal and professional rewards combined with compassion and technical skills

JOIN US @ MOH

NURSES AND MIDWIVES ARE THE HEART OF HEALTH CARE... WE STRIVE FOR HEALTHY PEOPLE...

Career as a NURSE

NURSING

The science of providing nursing care to patients, helping others in using skills that blend together scientific knowledge with compassion and collaborative caring of individuals of all ages, families, groups and communities; the sick or the ill; the disabled or the dying as well as caring for the well individual in all settings. Nursing involves in the provision of healthcare through holistic approach focusing on Promotive, Preventive, Curative and Rehabilitative Care.

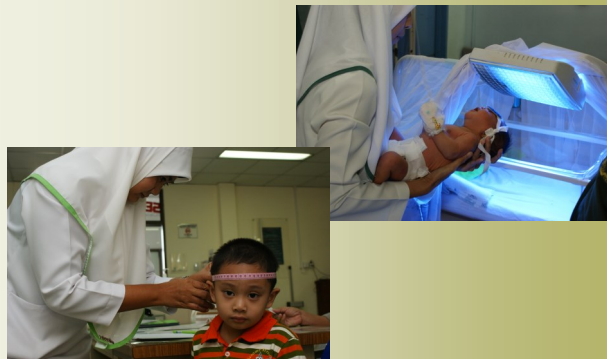

A registered nurse is a trained professional equipped with skills and knowledge in performing assessment, planning, implementing and evaluating care to patients including health education. Nurses work as a team with other health care professionals.

Career as a MIDWIFE

MIDWIFERY

Midwifery encompasses care of women during pregnancy, labour and the postpartum [after birth], as well as care of the newborn. It includes measures aimed at preventing health problems in pregnancy, the detection of abnormal conditions, the procurement of medical assistance when necessary and the execution of emergency measures in the absence of medical help.

A registered midwife is a trained and skillful professional that has been legally licensed to practice midwifery. A midwife is responsible and accountable to give the necessary support, care and advice / health education to a mother and her family, throughout pregnancy and birth. A midwife also provides subsequent care to mother and baby including promoting and supporting exclusive breastfeeding. Midwives practice in the community and hospital settings.

NURSING and MIDWIFERY are full of opportunities for you to **GROW** and **DEVELOP** with years of experience and clinical skills, to **ADVANCE** further studies in nursing and midwifery specialties and **CHANGE** your **CAREER PATHWAY**.
