(Hereinafter collectively referred to as “the Collection Points” and individually as “the Collection Point”)

(ii) All the clinical/biohazard wastes collection from the health clinic should be **deliver to the incinerator Plant Room any designated incinerator plant rooms within the state of Negara Brunei Darussalam.**

(iii) To supply all labour, personal protection equipment and transport deemed necessary, even if not specifically mentioned for collection and delivery of clinical/biohazard wastes for a period of **THREE (3) YEARS.**

1.2 General Requirement

To comply with the transportation regulations i.e to prevent accidental exposure of personnel who may handle the clinical/biohazard waste during its transportation. Therefore, there are certain general criteria which apply to all possible transport scenarios. Prior to collection and transporting wastes the following controls must be place:

- (i) Emergency procedures (e.g contact names and information, spill clean-up, disinfection protocols, etc) must be known to the person carrying for the clinical wastes.
- (ii) Submit **the list of vehicles proposed** for use in the performance of this Agreement **within (10) days of signing the Agreement** to the Hospital Administrator stating:
 - i. type of vehicles
 - ii. the registration numbers
 - iii. load carrying capacities by weight and volume

Any subsequent changes to the list **shall be notified to the** Supply Officer in advance.

Substitute vehicles to be used in case of breakdown shall also be made known to the Ministry of Health in advance.

- (iii) All clinical waste must be kept in plastic bags/ containers (specific labelled biohazards) before and during transportation.
- (iv) The plastic bags/ containers must be arranged in biohazard bin during transportation.
- (v) Proper protective clothing and PPE must be worn during the handling of the clinical wastes.
- (vi) Avoid spillage of any liquid forms, needles, and etc. during handling and transportation.
- (vii) Hands should be washed after handling clinical wastes.

1.3 Equipment

Supply and maintain waste receptacles at **each** of the Collection Points as follows:

- **One (1) unit Yellow Biohazard Bins with wheels roll-top lid – 240 liter**

Capacity	: 240 liter
Specification	<p>Lid : Two handles for easy opening : Pedal for easy opening of the bin</p> <p>Bins : Heavy duty, puncture proof, leak proof and top lid</p> <p>Wheels : Heavy duty, independent, auto-dirigible with metal rim and solid rubber casing for silent rolling of the bin : Bear simple foot brake on the two front wheels for easy immobilization of the bin : Rotation locking system of the two rear wheels (route guides) for direction control and for easy handling of the bin during the transfer</p>

1.4 Weighing of Waste Load

- (i) All clinical waste shall be weighed by the contractor during collection and the weight (in kilogram) shall be recorded in the 'Work Order' form.
- (ii) The Work Order form shall be certified by the In-Charges of the respective Klinik and shall be submitted to the Management every month.

1.5 Transports Between Origin and Destination

Due to the fact that the transportation of clinical/biohazard wastes between locations take place through the public domain, the following conditions apply:

- (i) The clinical waste shall be placed inside a primary container with a tight – fitting leak-resistant lid top cover.
- (ii) The surfaces of the primary container must be easily cleaned.
- (iii) The containers should be carefully inspected for sign of leakage or other contamination and if necessary, decontaminated before opening.
- (iv) Upon delivery, the receiving personnel (Estate Maintenance Section) should be informed and the clinical/biohazard waste properly stored before incinerated.

2. Failure to Collect

The Management of Department of Health Services reserves the right to impose a penalty/ penalties of **\$50 per day per Collection Point** in the event the Contractor fails or is unable to carry out the services within the time specified.
