

FIRST AID ROOM

The size and location of the first aid room must be adequate to the needs of the workplace and its identified hazards. It should be easily accessible to both injured person(s) and the medical services.

The following items should be available in a standard first aid room :

- Adult cervical collar
- A couch with pillow & blanket
- Adequate supply of sterile dressings & other materials for wound treatment
- Clean garments for use by first aiders
- Pocket mask
- Portable Oxygen set – 2 sets
- Suitable refuse container
- Sink
- Soap & nail brush
- Splints
- A suitable store for first aid equipment
- Stretcher(s)
- Clinical thermometer
- Torch Light
- Paper towels
- Smooth-topped working surfaces
